

SIAM ES Round Mouth Shovel

with 71cm Wood Rod & D-Handle
FRONT VIEW

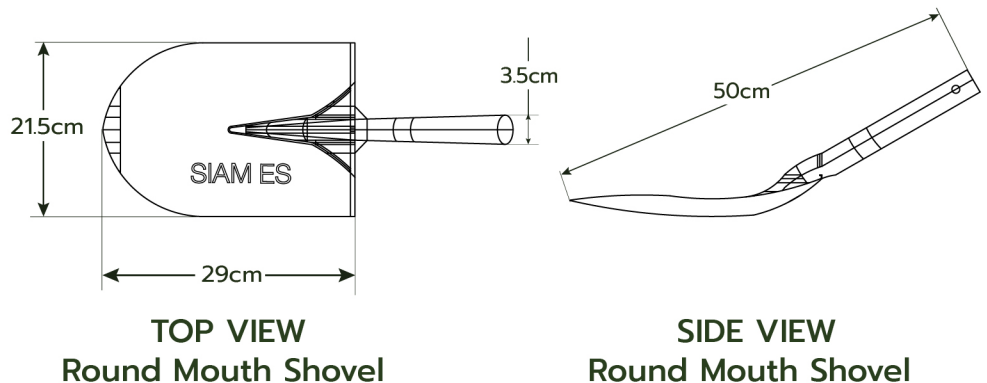

PRODUCT DESCRIPTION

Designed for control and ease of use in confined spaces, our Round Mouth Shovel with D-Handle offers a shorter, ergonomic grip for improved maneuverability. Its tempered steel blade ensures long-lasting durability, while the D-shaped handle enhances handling and comfort, making it ideal for precision digging and lifting.

APPLICATIONS

Perfect for construction, agriculture, gardening, and landscaping, this shovel excels in tight spaces and detailed digging tasks, making it a great choice for both professionals and homeowners.

DIMENSIONS

SPECIFICATIONS

Shovel Length	100cm
Round Head Length	29cm
Round Head Width	21.5cm
Round Head Weight (Typical)	630g

KEY FEATURES

- *Tempered Steel Blade* – Provides excellent durability and wear resistance.
- *Compact 71cm Wood Rod* – Shorter handle enhances control, ideal for confined workspaces.
- *D-Handle Design* – Improves grip and comfort, reducing hand fatigue.
- *Round Mouth Design* – Optimized for efficient digging, lifting, and scooping.
- *Reinforced Connection* – Secure attachment between handle and blade for enhanced durability.
- *Versatile Use* – Great for soil, sand, gravel, and various digging tasks.

KEY DIFFERENCE

Compared to the 120cm Wooden Rod version, the 71cm version with a DuHandle provides better control and grip for close-range work, making it ideal for compact areas and precise digging.
